

Winter Aid

Kernefortælling

This winter, thousands of families are struggling to cope with the freezing cold while on the run. Children are the most vulnerable and risk getting frost-bites and infections that could cost them their lives.

Many refugees are only wearing the clothes they had on when they left their homes. Red Cross distributes winter aid and supports families during the cold winter in the most vulnerable areas of Afghanistan, Ukraine, as well as Syria and the neighbouring regions.

We distribute warm blankets, mattresses, warm clothes, and heaters to keep them warm in the biting cold.
