

# DANISH RED CROSS' WINTER AID

## Facts about Danish Red Cross' winter aid

- Last winter high energy prices and growing inflation led to strained budgets in many Danish homes. However, in countries all over the world plagued with conflict, the prospect of winter is life threatening for millions of people.
- This winter, countless families are struggling to cope with the freezing cold while on the run. Children are the most vulnerable and risk getting frostbite and infections that could cost them their lives.
- Many refugees only have the clothes they were wearing when they left their homes. They desperately need help to keep warm and survive the cold of winter.
- Red Cross distributes winter aid and supports families during the cold winter in some of the world's most vulnerable areas in Ukraine, Afghanistan, Iraq, and Syria, as well as the surrounding areas.
- We distribute warm blankets, mattresses, warm clothes, and heaters to keep the families warm in the biting cold. And we hand out vital medicine so the children can resist various diseases.

**FOR 700 DKK.**

Red Cross can hand out sleeping kits which include a mattress, a pillow, a warm blanket and linen to a person who is fleeing Ukraine.
